Here is a list of **sample fake (phishing) and real URLs** that you can use to test your **Phishing URL Detection** project.

✅ **Real (Legitimate) URLs**

Website	URL
Google	https://www.google.com
Facebook	https://www.facebook.com
Amazon India	https://www.amazon.in
PayPal	https://www.paypal.com
GitHub	https://github.com
SBI Bank	https://www.onlinesbi.com
Netflix	https://www.netflix.com
Flipkart	https://www.flipkart.com
YouTube	https://www.youtube.com
IRCTC	https://www.irctc.co.in

❌ **Fake (Phishing) URLs – Examples for Testing Only**

⚠️ **Do not click these in a browser** – use them as test strings only. They may be offline or even malicious.

Fake Domain	URL
